Professional shovels
Your hygienic choice
for the workplace

Hygienic Shovels and Scoops

- perfect for the Food- and Beverage Sectors

Vikan's shovel range meets the high quality standards characterized by extremely durable products, which in the long term provide best value for money.

Small hygienic hand shovels and scoops

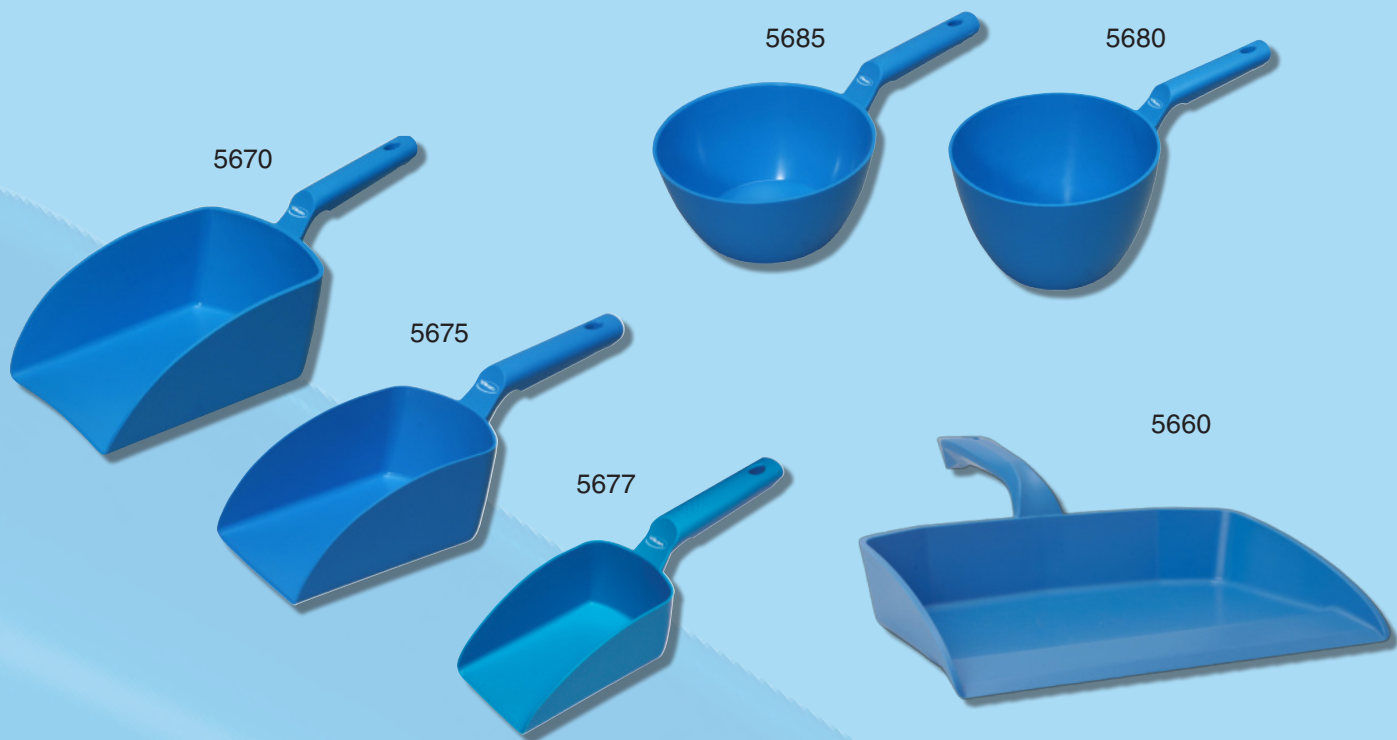

The handles provide a fixed grip without straining the muscles of the hand unnecessarily.

- 3 sizes of hand shovels with scraping edge (1/2, 1 and 2 litre)
- 2 round scoops with measuring lines inside (1/2, 1 and 2 litre)
- 1 dustpan with ergonomic handle and scraping edge
- Approved in accordance with the FDA & EC regulations

Hygienic shovels

The handle of Vikan's ergonomic shovels is designed with maximum flexibility resulting in minimum strain on the muscles. The size also ensures that the hand fits comfortably into the grip.

- Excellent for both right and left handed workers
- Thickness of handle and grip results in a minimum strain on the small muscles in the hand
- Isolated grip, which makes the shovel comfortable to use when used in a cold environment
- Curved design in 2 positions, which results in a significant improvement of the working position and maximum surface contact of the blade
- 2 different sizes of shovel blades with scraping edge to hold varying amounts
- 2 handle lengths
- Ergonomic handle is strengthened by an alu-tube inside
- 2 shovel models have holes in the blade for drainage
- Suitable for shoveling from the floor to containers
- Approved in accordance with the FDA & EC regulations

5 Strengths

Curved in 2 positions

The handle of Vikan's hygiene shovel is curved in 2 positions. This raises the handle by 8 cm in exactly the two places where the user places his hand.

Special scraping edge

The shovel blade has a special scraping edge to ensure easy removal of stubborn dirt and shovelling from the floor.

The grip

The width and thickness of the grip results in a minimum strain on the small muscles in the hand.

Curved in 2 positions

The handle of Vikan's hygiene shovel is curved in 2 positions. This raises the handle by 8 cm in exactly the two places where the user places his hand.

The handle

Ergonomic handle is strengthened by an alu-tube inside the plastic.

Hygienic standard Shovels

Large hand shovel

- Deep blade, which can hold larger portions
- Standard blade

Standard one-piece shovels

Vikan's standard one-piece shovels are suitable for shoveling from container to container or from container to conveyor etc.

- 3 different sizes of shovel blades with scraping edge
- Isolated grip, which makes the shovel comfortable to use when used in a cold environment
- 2 handle lengths
- Raw materials approved in accordance with the FDA & EC regulations
